### Basket | Trolley/Wall

- Ideal for mobile sphygmomanometers and mobile IV poles
- Powder coated
- Heavy wire mesh
- H185mm X W205mm X D130mm
- Fits 25mm diameter pole
- Can be wall mounted

#### Product Code | Description
---|---
BWPC | BASKET ONLY FOR WALL MOUNT
BWPCPM | BASKET WITH BRACKET POLE MOUNT
TBHTCPS100WB | COMPLETE UNIT HEAVY WEIGHT
TBMTCPS100WB | COMPLETE UNIT MEDIUM WEIGHT
TBLTCPS100WB | COMPLETE UNIT LIGHT WEIGHT

#### Pictured: Basket with Pole Mount
Please Note: The Complete Unit includes the Basket, Pole and Trolley Base

Liberty Rechargeable Ophthalmoscope
Coaxial optics enable easy entry into undilated pupils for more accurate diagnoses, while two filter selections provide optimum light levels for entering healthy eyes and those with cataracts.

- Precise lamp filament and optical alignment
- Provides light output for true tissue colour and consistent, long-lasting illumination
- 28 focusing lenses with a range of ±1D to +40D diopters
- 18 unique aperture/filter combinations for greater versatility
- Rechargeable handle, 120 minutes run time

6 Standard Apertures
- Cobalt blue filter, Micro spot, small spot, large spot, Slt, Fixation aperture.

With Red-Free Filter
- Cobalt blue filter, Micro spot, small spot, large spot, Slt, Fixation aperture.

- Compatible with Welch Allyn disposable ear tips

**Dispenser for Ear Specula**
- Specula dispenser for disposable ear tips
- Dispenser holds all specula sizes
- Prepares a clean new specula for each and every patient

**Wall Unit Transformer**
- Automatic on/off switch on handles when removed or replaced into the handle unit. Saves energy and increases the service life of the lamps
- Provides a constant 3.5V output voltage independent of mains voltage fluctuations
- Maximum Power Input: 15W
- Advanced, ergonomic handle design with continuous brightness control.
- Quality spiral cords with a comfortable working radius of up to 3 Metres.

**Sphygmomanometer**
- Square shaped 14cm diameter dial
- Front adjustable for easy reading
- Supplied with standard adult cuff
- 2-tube adult latex bladder
- Standard latex bulb
- Standard end valve
- PVC coil tubing

**Ear Thermometer**
- Reading Bound: 32.0°C ~ 42.9°C
- Battery: 2 x 1.5v AA Batteries (not included)

Flat Probe Doppler
The PD1 flat probe Doppler is a lightweight, highly sensitive device incorporating a flat 8 MHZ monitoring probe. Internal signal processing minimises noise artifacts.

Features include: Lightweight Unit; Battery saver systems; Audio output for optional headphones or speakers

- High sensitivity, able to detect the pulse of a 16-week fetus
- Safe, compact and portable design provides for convenient use
- Large backlight LCD displays the fetal heart rate
- Interchangeable waterproof probe
- Built-in speaker gives a clear and loud sound
- Automatic shutdown function when not in use
- Battery Life: Continuous use 10 hours plus
- Three calculation modes to calculate fetal heart rate: Instant, 10 second average and Manual

Goniometer | 360 Deg 6.5” (16cm)

A goniometer is used in the medical field to measure a joint’s range of motion (ROM). It can be helpful in determining if a patient is lacking in mobility due to an injury, or how well they are recovering after sustaining an injury.

This Liberty Goniometer (360 degree 16cm length) is made of clear plastic that allows for a full view of the extremity during measurement permitting observation of the joints, axis of motion and range of motion. The ruler has linear readings and measures in both inches and centimeters.

Get On Board with Pink Products

The Power of Pink with Liberty Health proudly supporting the McGrath Foundation

In addition, Liberty Health are continuing to donate 10% of October sales for the selected McGrath pink products sold to the McGrath Foundation, to help fund McGrath Breast Care Nurses in communities right across Australia, as well as increasing breast awareness in young Australian women.

Liberty Health products donate to the McGrath Foundation All Year Round!

Liberty Health are going pink! Liberty Health believe that this is such a good cause, that an extra 5% of sales for the selected McGrath pink products will now be donated to the McGrath Foundation all year round!

In addition, Liberty Health are continuing to donate 10% of October sales for the selected McGrath pink products sold to the McGrath Foundation, to help fund McGrath Breast Care Nurses in communities right across Australia, as well as increasing breast awareness in young Australian women.

About the McGrath Foundation

The McGrath Foundation was cofounded by Jane and Glenn McGrath after Jane’s initial recovery from breast cancer. It was Jane’s personal experience that led her to believe that the McGrath Foundation should raise money to place McGrath Breast Care Nurses in communities right across Australia, as well as increase breast awareness in young Australian women.

Today, the McGrath Foundation has helped support over 25,000 Australian families experiencing breast cancer, with 95 McGrath Breast Care Nurses working in communities throughout Australia, helping to coordinate care and ensure their physical, psychological and basic support needs are met, regardless of their financial situation.

In addition, the McGrath Foundation also encourages young women to be breast aware and has developed a Breast Awareness Card outlining how to do a regular breast check - early detection can mean more effective treatment.

To download the Breast Awareness Card or to see where McGrath Breast Care Nurses are currently working in your community, please visit mcgrathfoundation.com.au.
Liberty Health Products has teamed up with the McGrath Foundation to produce a range of medical products that are PINK. A percentage of every sale from these selected pink products is donated to the McGrath Foundation to help fund McGrath Breast Care Nurses in communities’ right across Australia - as well as increasing breast awareness in young Australian women.

**What is a McGrath Breast Care Nurse?**
McGrath Breast Care Nurses are health professionals specially trained to manage the care of breast cancer patients throughout the course of their treatment. They are the principal liaison between the patient and the specialists who coordinate their treatment - whether it be surgery, radiotherapy or chemotherapy.

McGrath Breast Care Nurses also play an important advocacy role as well as helping to clarify technical or complicated information that the patient may not understand.

Most importantly, McGrath Breast Care Nurses offer vital emotional support to the patient as well as being a friend for the patient and their families during what can be extremely difficult times.

Skin Marker | Sterile

Sterile Skin Marker
- Medium Tip
- The marker’s gentian violet ink is recognised by CE and has been tested by an independent laboratory; the ink is non-toxic, non tattooing and surgical prep resistant
- Markings can be removed from the skin with isopropyl alcohol
- Packaged with a 15cm flexible, high quality, laminated ruler both in centimetres and inches
- Meets the single use requirement to avoid infection

Plaster Saw | Electric

**Electric Plaster Saw**
- Swing: Frequency: ≥12,500 ft/min; Range: ≥5 degrees
- Power Supply: 220V AC, 50 Hz; Input Power: 125W
- Blade Diameter: 62mm; Power Cord Length: 2M
- Low noise total optimised mechanical structure and parts design
- Alloy blade is suitable for constant use
- Function of parenchyma protection is safe and reliable
- Suitable for cutting macromolecule plastic material
- Will also cut fibreglass
- Sturdy carry case included
- Comes with 2 blades

### Pulse Oximeter | Finger Tip Rechargeable

**Finger Tip Pulse Oximeter**

- Fully self contained and compact, the finger tip pulse oximeter is the perfect choice for any health care practitioner.
- Economical and easy to use
- Instant SpO2, pulse and pleth wave readings
- Lithium rechargeable battery
- Integrated with SpO2 probe and processing display module
- Displays: SpO2, Pulse rate, Pulse waveform, Bar graph display
- Rechargeable with battery capacity indication
- Real-time data can be transmitted to computers
- Automatic power off function
- Alarm function
- Trends
- Data download pack
- High visibility colour display
- Dimension: L 57mm × W 32mm × H 30mm
- Warranty: 1 year manufacturer’s warranty

**Product Code**
- POFCMS50E

**Description**
- RECHARGEABLE FINGER TIP PULSE OXIMETER

**Includes**
- USB Cable, Lanyard, User Manual, 1 x Rechargeable Battery, Installation Disk and Battery Charger

### Pulse Oximeter | Finger Tip

**Finger Tip Pulse Oximeter**

- Fully self contained and compact
- Instant SpO2, pulse and pleth wave readings
- High visibility colour display
- Can be used on 40kg plus
- Please note 2 x AAA batteries are NOT included
- Dimension: L 57mm × W 31mm × H 32mm
- Warranty: 1 year manufacturer’s warranty

### Pulse Oximeter | Finger Tip Child

**Finger Tip Pulse Oximeter**

- Ideal fit for children and infants
- Integrated with SpO2 probe and processing display module
- Rechargeable lithium battery
- Displays SpO2 value, Pulse rate value and bar graph
- A pulse rate and low-voltage sound indication
- Automatic power off function
- Dimension: L 46mm × W 40mm × H 29mm
- Warranty: 1 year manufacturer’s warranty

**Product Code**
- POFCMS50I

**Description**
- FINGER TIP PULSE OXIMETER CHILD RECHARGEABLE

**Includes**
- Lanyard, User Manual, 1 x Rechargeable Lithium Battery and Battery Charger

Please Note: This product may vary in colour, between yellow, pink or blue, dependent on shipment from supplier. Colour may not be selected.
**Reflex Hammer | National Hospital**

**National Hospital Reflex Hammer**
The National Hospital Reflex Hammer head is surmounted with a chrome-plated brass disc (50mm diameter) grooved to house the TPR rubber collar. The weighted head and soft rubber collar is perfectly suited in provoking myotatic responses. Flexible nylon handle consists of a slender tapering. The tapered point is suited for eliciting plantar and abdominal responses.

- RHNHP is made in Australia
- Durable 36cm Delrin Shaft
- 50 mm rubber Impact Ring

**Product Code**
- RHNHP
- RHNHP

**Description**
- REFLEX HAMMER NATIONAL HOSPITAL (AUSTRALIAN MADE)
- REFLEX HAMMER NATIONAL HOSPITAL (MADE IN PAKISTAN)

---

**Reflex Hammer | Percuflex**

**Percuflex Reflex Hammer**
Reflex hammer with a tunable head for reflex testing and percussion.
- **Handle:** The ergonomic chrome-plated brass handle is precisely balanced for increased control of force in the percussion.
- **Head:** The balance-weighted head is outfitted with a large and small mallet constructed of soft TPR for precise percussions.
- **Retractable Brush:** The built-in retractable brush at the base of the handle can be easily accessed to elicit cutaneous reflexes.
- **Integrated Pointed Tip:** The recessed chrome-plated brass head is equipped with a screw-in pointed tip for pinprick cutaneous reflex testing.

**Product Code**
- RHP

**Description**
- REFLEX HAMMER PERCUFLEX 75G BLUE

---

**Reflex Hammer | Babinski Telescopic, Liberty**

**Babinski Telescopic Reflex Hammer**
Stainless steel construction rubber impact ring head that can be mounted at a right angle.

- Stainless steel construction
- Rubber impact ring for testing reflex reaction
- Head can be mounted at right angle (illustrated) or parallel to the shaft
- Equipped with a pointed end piece for testing nervous system response
- Unique telescopic design makes a compact unit

**Product Code**
- RHBT

**Description**
- LIBERTY REFLEX HAMMER BABINSKI TELESCOPIC
**Reflex Hammer | Babinski**

**Babinski Reflex Hammer**
Stainless steel construction rubber impact ring head that can be mounted at a right angle.

- Stainless steel construction
- Rubber impact ring
- Head can be mounted at right angle (illustrated) or parallel to the shaft
- Includes screw out needle

**Reflex Hammer | Buck Neurological**

**Buck Neurological Reflex Hammer**
The Buck Neurological Reflex Hammer is a versatile dual mallet-type hammer with screw-in pointed tip and retractable brush and is designed and suited for attaining myotatic and cutaneous responses.

- **Handle:** The ergonomic chrome-plated brass handle is precisely balanced for increased control of force in the percussion.
- **Head:** The balance-weighted head is outfitted with a large and small mallet constructed of soft TPR for precise percussions.
- **Retractable Brush:** The built-in retractable brush at the base of the handle can be easily accessed to elicit cutaneous reflexes.
- **Integrated Pointed Tip:** The recessed chrome-plated brass head is equipped with a screw-in pointed tip for pinprick cutaneous reflex testing.

**Reflex Hammer | Taylors**

**Taylors Reflex Hammer**
The Taylor Reflex Hammer has a weighted chrome-plated Zinc Alloy handle and is precisely balanced for increased control of force in the percussion. The encircling band of handle with pin firmly secures the triangular head midway between the apex and base.

- "Tomahawk" style
- Rubber impact head
- Stainless Steel handle
Liberty Portable Suction Pump
- Portable, compact small size
- Light-weight, easy to carry
- High negative pressure
- Large Flux
- Oil-free lubrication pump
- Square negative pressure dial
- Built-in bottle cavity
- Low noise
- Can use disposable canisters
- Volume: 18 Litres
- Power: 240V

Product Code Description
SPB LIBERTY 7E-A SUCTION PUMP 240V 18 LITRE

Liberty Multi-Voltage Suction Pump
- Multi-Voltage, compact small size, light-weight and easy to carry
- Fully portable unit incorporating three modes of electricity: 240V AC, 12V DC and Battery
- High negative pressure, square negative pressure dial
- Large Flux
- Oil-free lubrication pump
- Built-in bottle cavity
- Low noise
- Volume: 15 Litres
- Power: 240V, 12V DC or Battery

IV-Stands for all forms of Care

Our range of IV stands have multiple applications in hospitals, physician practices as well as home-care. The highest quality designs are adopted using a variety of materials, including stainless steel and polymers. Some IV stands incorporate a single hand operation for height adjustment and internal mechanisms that prevent sudden dropping of the IV pole.
Tape Measure
Retractable Tape Measure
- 2 metre retractable measuring tape
- Plastic housing
- Flexible material tape with metric measurements

Digital Timer
- Electronic timing
- Clip attachment for clothing or board
- Magnet for attachment to metal surface
- Stand
- Counts down from 100 minutes. Alarm duration 1 minute
- Counts up to 60 minutes then recycles automatically
- 8mm high display

Diagnostic Tonometer
High precision eye tonometer for measuring intraocular pressure. Its reliability and durability makes this quality measuring instrument indispensable for every ophthalmologist and eye clinic.
Features include: High quality agate bearing for an extremely long service life; Precision measurement on a scale of 0-20 sub divisions and 0-1 sub divisions; Perfect reading of the scale with red pointer; Comes with 3 weights (5.5 g, 7.5 g, 10 g) and conversion table; Specification 5, polished weights; with inspection certificate

Silicone Tubing
- Translucent, environmentally friendly, releases no toxic fumes when disposed of by incineration
- Manufactured from 100% silicone elastomer
- Ideal in nuclear medical devices, food manufacturing and processing, laboratory and scientific equipment

Tuning Forks

Tuning Forks for medical purposes made from special aluminium-magnesium-alloy or stainless steel for examination of hearing, sensitivity tests and other diagnostic purposes.

Helpful Information
- The number of each tuning fork gives a different frequency.
- The foot on the tuning fork helps it to stand upright.
