

Clinipak Cleaning Brushes

Nylon Bristles

- A range of brushes with strong nylon bristles mounted into durable handles which are long lasting and safe to use
- Ideal for cleaning instrument jaws
- The round bottle brushes have stainless steel wire handles for items like diathermy quivers
- May be decontaminated when necessary
- Long lasting and safe to use
- Not autoclavable, washer proof
- These brushes are suitable for cleaning and disinfection, but not for steam sterilisation
